

*After graduating college and moving back to Southwest Michigan, I wanted to find a way to give back to my community. I felt that serving on a board for a non-profit would solidify my want. A good friend of mine was the previous Treasurer of the Board, and he introduced me to The Avenue and other board members. During this introductory process, I was fascinated by the work The Avenue does for the community and how it significantly impacts the well-being of its clients. I support The Avenue, because the community needs an organization like The Avenue in order to better its citizens and to provide a top-notch service that is needed in the community.*
